

Western Cape, South Africa

# Stellar Organics Extra Dry Sparkling

**IDEA** Sometimes you just need some bubbles in your day... The Stellar Sparkling was designed to be that wine. Certified organic and Fairtrade.

**TASTING NOTES** A light straw color with very lively bubbles. Faintly sweet flavors of citrus apple on the nose. A rich mouth feel, creamy texture, crisp balance with a medium to short finish.

**PAIRING** Great with canapes, spicy curries, oysters, grilled salmon and light chicken lunches. Also complements late night parties and everyday celebrations.

**CELLARING** Drink Up!

**VINEYARDS** Along the Olifants River Valley on the West Coast, between the town of Trawal (Stellar) and Vredendal. Pristine weather for organic viticulture with an annual average temperature of 77° F and fewer than 7 days of cloud cover. Total annual rainfall of less than 8" but unlimited water from an aqueduct for irrigation. 30 - 68 meters

above sea level. Over 900 snail-eating ducks are the only pesticides allowed.

**BEHIND THE CELLAR DOOR** The grapes are first cooled to 0°C before destemming and gas macerated for 7 days at 13°C - 16°C. Natural fermentation takes place in stainless steel tanks with controlled temperature increases to 26°C for a further 60 - 70 days. All pump-overs done by inert gas and gravity. Bottling with latest technology and onsite ingenuity.

Varietal	100% Chenin Blanc	TA	7.4 g/l
Appellation	Western Cape	VA	0.34 g/l
Trellising	Vertical shoot positioning (VSP)	SO2	121 mg/l
Soil Type	Karoo sand and shale	RS	15.8 g/l
Yield	13 tons/hectare	UPC	6009679893252
